Aya Al Shahal

Tripoli, Lebanon | (+961) 71-328063 | ayashahal055@gmail.com | [LinkedIn](#) | [Github](#)

Passionate junior full stack developer skilled in JavaScript, HTML, CSS, React, Node.js, and Flutter, eager to collaborate on innovative, user-friendly web and mobile applications

Experience

Software Developer at Inventus, Tripoli, Lebanon   July 2023 – Present
Developed and maintained web and mobile applications using Flutter, WordPress, Shopify, React, and Node.js.
- Created and managed various web projects, including:
- [PIU Paris](#) - University project using Next.js and Node.js.
- [Fit20 Gym](#) - WordPress-based gym website, [North Golf Cart Rental](#) - WordPress-based cart rental website.

Mentee at Codi, Tripoli, Lebanon   Nov 2022 – May 2023
Enrolled in a 6-month Full Stack Development Bootcamp with a simulated work environment, focused on intensive self-paced learning and gaining expertise in various technologies and tools relevant to Full Stack Development
- Developed a range of full-stack web applications using various stacks and tools, such as MERN and LAMP, Git and GitHub, and Agile Methodology.
- Collaborated in a team of four to design, develop, and ensure timely project completion, focusing on responsive design for seamless user experiences.

Technical Projects

Surplus Savior Website, [Code](#) | [Demo](#)

I independently designed and developed a website for a food waste reduction initiative using the MERN stack.
- Implemented the MERN stack (MongoDB, Express, React, Node.js) to create a dynamic website.
- Designed and developed various features, including the contact form, admin dashboard.

Learning Management System, [Code](#) | [Demo](#)
Collaborating with a team of four to design and develop an LMS (Learning Management System) using LAMP stack (Linux, Apache, MySQL, PHP).
- Implementing various features such as user authentication, course creation.
- Ensuring a seamless user experience by implementing responsive design principles.
